Memorandum

TO : C/SMS

DATE: 28 July 1965

FROM : DAD/S&D

SUBJECT:

How do we propose to go about making the results of available to the community in general? I agree that the interest is very limited but somebody in each Agency should have some idea of what we have. I also think that appropriate OSI people should be cut in. I think that you ought to get your hands on the report and handle it exactly the way we handle the rest of the - running around loose is not a very good idea here.

Are you convinced that we have all the copies in existence in our hands and under control, or does still retain a batch? If they do, we can kind of bet our last dollar that they will be showing them to somebody else sooner or later.
